

SYDNEY WESONGA

Nairobi, Kenya | +254 114 610579 | wesongasydney2@gmail.com | GitHub: Wales254

PROFESSIONAL SUMMARY

Applied Computing graduate specializing in Software Development, with hands-on experience in full-stack web development, data entry, data analysis, and IT support. Skilled in JavaScript, React.js, Node.js, Express.js, MongoDB, SQL/MySQL, Python, Excel, and Git/GitHub. Experienced in building responsive web applications, RESTful APIs, database-driven systems, and practical data workflows involving cleaning, validation, reconciliation, analysis, and reporting. Detail-oriented, adaptable, and committed to delivering reliable solutions while continuously developing technical and analytical skills.

CORE SKILLS

- **Full-Stack Development:** JavaScript, React.js, Node.js, Express.js, PHP, HTML5, CSS3, Tailwind CSS, RESTful APIs
- **Data & Analytics:** Microsoft Excel, SQL/MySQL, Python, data cleaning, data transformation, data validation, data analysis, reporting, data visualization
- **Databases & Tools:** MongoDB, MongoDB Atlas, Git, GitHub, Postman, VS Code, Supabase
- **IT & Systems:** Hardware/software troubleshooting, network support, system maintenance, user support, security fundamentals
- **Business & Productivity:** CRM/ERP systems, documentation, process improvement, time management, team collaboration
- **Development Practices:** Agile/Scrum, debugging, API integration, version control, responsive design, problem solving

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Developer

Nairobi, Kenya May 2026 – Present

- Develop responsive web applications and business-focused digital solutions using modern front-end and back-end technologies.
- Build and integrate RESTful APIs, database-driven features, authentication workflows, and third-party services.
- Develop and maintain scalable application code with a focus on performance, usability, security, and maintainability.
- Work with clients and project stakeholders to understand requirements, translate business needs into technical solutions, and provide post-launch support.
- Create prototypes, technical documentation, and reusable components to support efficient product development.
- Apply data analysis and reporting techniques to organize information and support practical business decisions.

Data Entry Clerk — Peoplelink Consultants Ltd

Nairobi, Kenya September 2025 – February 2026

- Entered, reviewed, cleaned, and validated records while maintaining accuracy across client and operational databases.
- Cleaned and transformed raw data in Microsoft Excel and reconciled information from multiple sources.
- Used Excel lookup functions, including VLOOKUP, to cross-reference records and streamline data reconciliation.
- Identified duplicate, incomplete, and inconsistent records and supported corrective updates.
- Standardized data-entry procedures and categorized datasets for reporting and operational use.
- Supported client database maintenance, employee-information entry, and CRM-related data activities.

IT Intern — Kenya Medical Training College (KMTc), Murang'a Campus

Murang'a, Kenya May 2024 – September 2024

- Provided first-line technical support by troubleshooting hardware, software, connectivity, and user-access issues.
- Assisted with maintenance and support of computer systems, Wi-Fi infrastructure, and other ICT equipment.

- Supported system and network monitoring activities and helped maintain reliable access to ICT services.
- Assisted with implementation and maintenance of network security measures and data-protection practices.
- Supported users with technical issues and documented troubleshooting activities to improve resolution efficiency.
- Contributed to the maintenance and integration of ICT systems, including CRM/ERP-related support.

EDUCATION

Bachelor of Science in Applied Computing — Software Development Option

KCA University | 2025

Kenya Certificate of Secondary Education (KCSE)

Musingu High School | 2020

PROFESSIONAL TRAINING & CERTIFICATIONS

IBM Data Fundamentals — IBM, under the support of ICT Authority of Kenya

Software Engineering — MERN Stack — Power Learn Project (PLP)

ALX Career Essentials — ALX

SELECTED PROJECTS

FreshFold Laundry Management System — React, Redux, JavaScript, MUI, local storage; role-based workflows for orders, customers, inventory, pricing, payments, reports, and receipts.

Simple Survey Application — PHP, MySQL, HTML/CSS/JavaScript; data collection, storage, validation, and reporting workflow.

Personal Portfolio Website — HTML, CSS, JavaScript; responsive presentation of software development projects, skills, and contact information.
